

Wolverine Two Ram

For ONP, OCC, High Grade Paper, Solid Waste, PET, HDPE, Film, Cans , and Non-Ferrous Metals

Key Advantages:

- Heavy Duty Construction with Hardox450 replaceable wear liners, HiLo floor, 50% heavier than other balers in this class
- 88 Tons of force and 145psi ram face pressure—17% more force & 50% more ram face pressure than the competitors
- Designed to shear—most competitors run cycle eye low to minimize shear
- Combo Door—includes over size bale door, separation door, and can run in plug mode
- Ram positioning by laser
- Category III Safety levels – standard
